

Stopping Our Government from Punishing Christians for Their Faith

- ✓ **President Trump** issued an Executive Order prohibiting the U.S. government from discriminating against Christians or punishing expressions of faith, affirming First Amendment protections for religious freedom. This Executive Order also requires the U.S. government to vigorously protect and defend religious freedom and public expressions of religious faith.
- ✓ This Executive Order ends the Obama Administration's illegal misuse of the Justice Department and other federal agencies to prosecute and persecute Christians who express their faith.

Destroying ISIS and Making America Strong Again

- ✓ **President Trump** is allowing America's generals to decide how to destroy **ISIS**. Since President Trump took office, every ISIS stronghold in Iraq has been destroyed. Because of attacks on ISIS ordered by President Trump and his generals, the founder and leader of ISIS, Abu Bakr al-Baghdadi, is now dead (SOURCE: Newsweek) and the entire leadership of ISIS has been decimated. ISIS is in retreat everywhere. More than 50,000 ISIS fighters have been killed since President Trump was sworn into office. ISIS is now a shell of what it was when it grew to prominence under the weak and feckless leadership of President Obama.
- ✓ **President Trump** applied very tough economic sanctions and military pressure on the **North Korean** dictator **Kim Jong-un**. The result: Kim agreed to end his nuclear weapons program, allow inspections of his nuclear sites to make sure they really are shut down, and has ended North Korea's 68-year state of war with South Korea. President Trump is proving every day that "peace through strength" works.
- ✓ **President Trump** has reversed **President Obama's** policy of allowing transgender people to serve in our military because the military is no place for progressive social experiments. Instead of spending billions of dollars on special healthcare needs for transgender soldiers, President Trump has decided this money is better spent on weapons and soldiers who are fit for duty.
- ✓ After years of cuts to our military under President Obama, **President Trump** has signed into law the largest increase in defense spending since the Reagan years.
- ✓ **President Trump** is calling our enemy its proper name – radical Islamic terrorism.

Transforming America's Courts

- ✓ After years of President Obama packing our federal courts with more than 400 radical Left federal judges, **President Trump** has been appointing more than 150 solid Constitutionals to our federal courts, including **Justice Neil Gorsuch** to the Supreme Court – who is proving to be every bit as solid with his rulings as the late great Justice Antonin Scalia and Justice Clarence Thomas. Just imagine the kinds of radical anti-Christian judges and Supreme Court Justices we would be getting if Hillary Clinton had been elected President.
