DEEP STATE / SHADOW GOVERNMENT

101

In lieu of not having a political page in this news paper, I am forced to address important political information in the "Letters to the Editor". So, I will reduce important information into miniature reports of 500 words or less, to detail and prove the content.

I am going to throw caution to the wind and begin a series of letters to the editor that will address an issue that both political parties are going to come out of the skins and cry fowl. Nevertheless, it is time that the voting public and public officials find out that they have been unknowingly controlled for years. Those who are responsible for this control are either going to come to the surface to fight for their continued control or they are going to run like cockroaches in the light.

The reason why I am ready to tackle this deceitful, ominous and corrupt subject is, the enemies of our country and its freedom are now surfacing for air and admitting their agenda's, yes the agenda's are plural. If they continue to be successful in their cover-up's, this country will experience a social collapse like never before experienced. Those who have common sense and those who understand religious doctrine will understand why we must now come together and fight for what is right.

After years of studying the major religions of this earth, I have found two idioms that should guide us in this endeavor of unveiling the truth and giving the people back their State Constitution.

The Hindu's and the Buddhist say: "He who knows, but does not do, does not know".

The Jews and the Christians say: "He who knows of a lie, but does not expose the lie, is part of the lie".

I have created a saying that is related to the above: He who knows the truth and does not speak it, is a liar.

To begin: How many of you, have had the conscious feeling that something is wrong in politics, both Federal and State? We ponder the fact that we send our elected legislators to represent us based on their reputation and what they say they will do and then something mysterious happens. Is it the water they drink or the food they eat, or are they hypnotized. Why is it, most of them fall into line with their political parties interest and then very little is done for the people. Yes, once and awhile they throw us a bone and then they prance around and pat each other on the back for a job well done and then we fall asleep once again.

This issue will continue in the following editions in this news paper. Much of this revealing dialog will continue each week, as the information is voluminous. I will respond and include answers to questions of interest concerning the Deep State and Shadow Government. So please, this is your opportunity, public servant or voter, I invite you be involved in this endeavor.

Spokesperson for "Take America Back", Phil Merletti
